PROFESSIONAL SUMMARY

MBA in Business Analytics with seven plus years of full lifecycle account ownership, managing a substantial book of business from onboarding through renewal with no handoff to a separate team. Proven track record driving retention strategy through data analysis in Excel and CRM systems. Builds practical data and automation tools, from Power BI dashboards to AI powered workflows, to solve real business problems. Bilingual in English and Spanish.

CORE SKILLS

Account & Lifecycle Management: Full Lifecycle Book of Business Ownership, Retention Strategy, Client Relationship Management, Renewal & Expansion Management

Data & Reporting: Excel (Advanced Data Analysis), Power BI, SQL, Python, KPI Reporting, Dashboard Design

Operations & Project Management: Project Management, Process Design & Documentation, Multitasking & Prioritization, CRM Systems (Entrata, RealPage, Yardi), n8n Automation

PROFESSIONAL EXPERIENCE

Leasing Consultant | The Morgan Group | Houston, TX | September 2023 – Present

- Owned a book of business of 150+ accounts end to end, from onboarding through renewal, with no handoff to a separate function, sustaining a 93 to 95% retention rate
- Led a retention strategy project with a defined scope and timeline, using Excel and CRM data analysis to improve property retention from 77% to 97% within six months
- Operated under performance based compensation tied directly to retention and portfolio goals, consistently meeting and exceeding targets
- Managed competing priorities across a full resident portfolio while maintaining accurate account data and clear reporting for leadership

Leasing Consultant | ZRS Management | Houston, TX | July 2021 – September 2023

- Managed a large book of business end to end, analyzing account data in Excel and CRM systems to identify retention trends, improving retention from 67% to 93 to 95% within seven months
- Tracked and reported on performance metrics including conversion rates, closing rates, and retention rates, sustaining closing rates exceeding 30% under performance based compensation
- Led and project managed an 80 day early renewal initiative grounded in account data, driving retention from the mid 80s to 93 to 95% and sustaining it
- Trained and mentored team members on account management and retention best practices, with all trainees achieving top performance

Assistant Manager | KaplanCorp | Houston, TX | February 2019 – July 2021

- Managed daily operations and account level reporting for a 326 unit multifamily property, District at Memorial, including leasing, resident relations, and occupancy data analysis to support leasing strategy

ANALYTICS PROJECTS

Pulse — Customer Success Power BI Dashboard | Power BI, DAX, Data Modeling

- Built a multi page Power BI dashboard tracking customer health, retention, and engagement KPIs across a galaxy schema data model, authoring 13 DAX measures for churn risk and account health scoring

Triage — AI Powered Lead Qualification Agent | n8n, Claude API, Automation

- Designed, built, and launched a production AI workflow that qualifies inbound leads automatically across CRM logging, spreadsheet tracking, and email response

Layoffs Dataset — Cleaning & Pivot Tables | Excel, Data Cleaning, Pivot Tables

- Cleaned a real 4,600 row dataset, resolving inconsistent formatting and location data errors, then built four pivot tables analyzing layoff volume and severity by industry and region
